# MULTIVIEW

---

QUICK START GUIDE

**NDI**<sup>®</sup>

Welcome to BirdDog Multiview.

To add a new multiview click on one of the "+" icons.

Select the desired layout for your multiview by clicking on it.

A mouse hover will allow you to configure your sources by pressing the button.

Select the screen you want to configure by clicking on it and then on a source from the list.

A screenshot of the BirdDog MULTIVIEW NDI configuration window. The window has a red header bar with the BirdDog logo and 'MULTIVIEW' on the left, and 'NDI' with window control icons on the right. The main area is a 3x3 grid of blue squares. The top-left square is highlighted with a white arrow pointing to it from the text above. On the right side, there is a 'CONFIGURE SOURCES' panel with a refresh icon. Below the title, it says 'Select the screen you want to configure and add a source from list below'. There is a list of radio button options: NONE, CLOCK, STUDIO NDI 01 (which is selected), STUDIO NDI 02, STUDIO NDI 03, BD MINI 01, BD MINI 02, EYES P200 B 01, EYES P200 W 01, and BD P4K B 01. At the bottom right of the panel are 'CANCEL' and 'SAVE' buttons. A white arrow points from the text below to the 'SAVE' button.

Repeat until you have completed your desired configuration. Save.

Toggle the NDI switch to enable/disable NDI broadcasting on the network.

By clicking on the burger menu a setting popup will appear.

The screenshot shows the BirdDog Multiviewer interface. The top bar is green with the BirdDog logo and 'MULTIVIEW' text on the left, and 'NDI' with window controls on the right. The main area is divided into three sections: a 3x3 grid of video sources, a settings popup, and three empty slots. The 3x3 grid shows sources labeled 'STUDIO NDI 01', 'STUDIO NDI 02', 'STUDIO NDI 03', 'BD MINI 01', 'BD MINI 02', and 'BD MINI 03'. A central timer shows '00:00:00'. The settings popup is titled 'MULTIVIEWER SETTING' and contains the following information:

**MULTIVIEWER SETTING**

NAME: MULTIVIEWER 1

NDI RESOLUTION: PROXY  FULL RESOLUTION

MULTIVIEW RESOLUTION: 1080p30

SCREEN SOURCE	AUDIO METERS	SOURCE NAME	TALLY INDICATORS
STUDIO NDI 01	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
STUDIO NDI 02	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
STUDIO NDI 03	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
BD MINI 01	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
BD MINI 02	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
EYES P200 B 01	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
EYES P200 W 01	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
BD P4K B 01	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

The settings popup also features a toggle for 'NDI' which is currently turned on. The empty slots are labeled 'EMPTY' and contain a large plus sign.

You can choose to change the name, NDI resolution, multiview resolution and add audio meters, source name, and tally indicators for your sources.

You can view any Multiviewer in full screen by pressing the expand button.

Click the top right button to exit from full screen mode.

By pressing the "X" on the multiview top left corner you will delete it.
