When delivering events, set the privacy settings on Facebook. When distributing to other than that, set the privacy setting on the GY-HM250.

5. Start Facebook Live delivery

[Main Menu]
→ [System...]
→ [Network Settings...]
→ [Live Streaming Set...]
→ [Live Streaming]
→ [On]

How to set “Visibility of the app on Facebook”

Facebook setting should be done prior to the GY-HM250 setting. If you want to set to "Visibility of the app on Facebook" (Public, Friends, or Only Me), be sure to make the setting both on Facebook and the GY-HM250.

GY-HM250 Setting

When Facebook is set to Public, the GY-HM250 can be set to Public, Friends, or Only Me.

When Facebook is set to Friends, the GY-HM250 can be set to Friends or Only Me.

Facebook Setting

Main Menu

- Settings
- Business integrations
- Live from Cam...
- “Business integrations visibility and post audience”

Notes:

- Please read Facebook terms and conditions of use carefully before using.
- If you enable people to publish Live Video to Facebook, please do not include third party ads in your video content and to clearly distinguish any pre-recorded content from live content.
