Chapter 5   Maintenance and Cleaning

In order to ensure that the equipment can play its good performance and extend its service life, please familiarize yourself with the following contents for better daily maintenance and cleaning.

Maintenance

- Do not use hard material to puncture or scrape equipment

- Do not store equipment in an environment containing corrosive electronic circuits.

Cleaning

- Please clean the equipment regularly, use clean dry towel or brush to wipe the dust on the equipment surface.

- If the equipment is dirty, clean with neutral detergent and non-woven fabric, do not use detergent, alcohol, spray and other chemical agents to avoid the damage of the equipment. Be sure to make sure that the equipment is dry thoroughly. Otherwise, do not use it.

Chapter 6   Quality Commitment and Maintenance Terms

The company promises that, from the day of purchase, the equipment produced by our company may have defects in the material or production process under the normal operation and maintenance conditions from the date of purchase, and may enjoy the following warranty service.

1. Warranty Scope and Duration

12 months for the host

2. Warranty Claim

If you apply for product repair, please be sure to provide the company's product warranty card or valid purchase invoice as a certificate. During the warranty period, the relevant mark of the product should be kept clean and intact.

Warranty Card

In order to safeguard your rights and interests, please fill in carefully and keep it properly as a voucher for maintenance.
