BX4

4.5-inch 120-Watt Multimedia Reference Monitors for Music Production, Live Streaming and Podcasting (pair)

Upgrade Your Sound
Are you unhappy with the sound quality of your built-in computer speakers? Looking to get a better listening experience for your favourite music, podcasts, live streams, video games, video calls and conferences? The M-Audio BX4 monitors are the perfect choice! Compact, attractive and simple-to-install, M-Audio's BX4 desktop speakers have been meticulously created for you to experience your media like never before!

Immersive Listening Experience
Designed for live streaming, podcasting, gaming, watching movies or listening to your favourite music, M-Audio's BX4 monitors provide and impressive 120 Watts of crystal-clear sound inside an attractive, style-driven design. The two-way design features an Acoustically-inert MDF cabinet with bass reflex that facilitates a smooth low end and punch through the Black Kevlar® low frequency drivers. Plus, the enhanced rear ports add extended low-frequency response making any video-game, movie or song you play a truly immersive experience. Add to this, the computer-optimised natural silk dome tweeters for a crystal clear high-end and precise stereo image, and the BX4 delivers pristine sound quality perfect for any multimedia application.

Perfect Connections
The rear panel connections offer ¼-inch, ⅛-inch, and RCA inputs making them compatible with all your gear. There is even an ⅛-inch aux input and headphone connection on the front of the speaker for your tablet, computer, or mobile device.

Tailor Made Sound
With the BX4, no stone is left unturned when it comes to providing you with the ultimate customised listening experience. High-EQ and Low-EQ controls dial in the perfect sound for your environment. The Left/Right Active Speaker Position switch even lets you choose which speaker is the Left or Right side - particularly useful if you are left-handed and want the speaker with the front panel volume control on your left side.
