Copying, reproducing or transmitting this file is not allowed if a license is not provided by Lumens Digital Optics Inc. unless copying this file is for the purpose of backup after purchasing this product.

In order to keep improving the product, Lumens Digital Optics Inc. hereby reserves the right to make changes to product specifications without prior notice. The information in this file is subject to change without prior notice.

To fully explain or describe how this product should be used, this manual may refer to names of other products or companies without any intention of infringement.

Disclaimer of warranties: Lumens Digital Optics Inc. is neither responsible for any possible technological, editorial errors or omissions, nor responsible for any incidental or related damages arising from providing this file, using, or operating this product.

## **Chapter 1 Safety Instructions**

Always follow these safety instructions when using the product:

#### 1 Operation

- 1.1 Please use the product in the recommended operating environment, away from water or source of heat.
- 1.2 Do not place the product in tilted position or unstable trolley, stand or table.
- 1.3 Please clean the dust on the power plug prior to usage. Do not insert the product's power plug into a multiplug to prevent sparks or a fire.
- 1.4 Do not block the slots and openings in the case of the product. They provide ventilation and prevent the product from overheating.
- 1.5 Do not open or remove covers, otherwise it may expose you to dangerous voltages and other hazards. Refer all servicing to licensed service personnel.
- 1.6 Unplug the product from the wall outlet and refer servicing to licensed service personnel when the following situations happen:
  - If the power cords are damaged or frayed.
  - If liquid is spilled into the product or the product has been exposed to rain or water.

#### 2 Installation

2.1 For security considerations, please make sure the standard hanging rack you bought is in line with UL or CE safety approbations and installed by technician personnel approved by agents.

#### 3 Storage

- 3.1 Do not place the product where the cord can be stepped on as this may result in fraying or damage to the lead or the plug.
- 3.2 Unplug the product during thunderstorms or if it is not going to be used for an extended period.
- 3.3 Do not place the product or accessories on top of vibrating equipment or heated objects.

#### 4 Cleaning

4.1 Disconnect all the cables prior to cleaning and wipe the surface with a dry cloth. Do not use alcohol or volatile solvents for cleaning.

#### 5 Batteries (for products or accessories with batteries)

- 5.1 When replacing batteries, please only use similar or the same type of batteries.
- 5.2 When disposing of batteries or products, please adhere to the relevant instructions in your country or region for disposing of batteries or products.

#### Precautions

4	This symbol indicates that this equipment may contain dangerous voltage which could cause electric shock. Do not remove the cover (or back). No user-serviceable parts inside. Refer servicing to licensed service personnel.	Ì	This symbol indicates that there are important operating and maintenance instructions in this User Manual with this unit.
---	---	---	--

#### FCC Warning

This equipment has been tested and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment.

Notice :

The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

#### IC Warning

This digital apparatus does not exceed the Class A limits for radio noise emissions from digital apparatus as set out in the interference-causing equipment standard entitled "Digital Apparatus," ICES-003 of Industry Canada. Cet appareil numerique respecte les limites de bruits radioelectriques applicables aux appareils numeriques de Classe A prescrites dans la norme sur le material brouilleur: "Appareils Numeriques," NMB-003 edictee par l'Industrie.

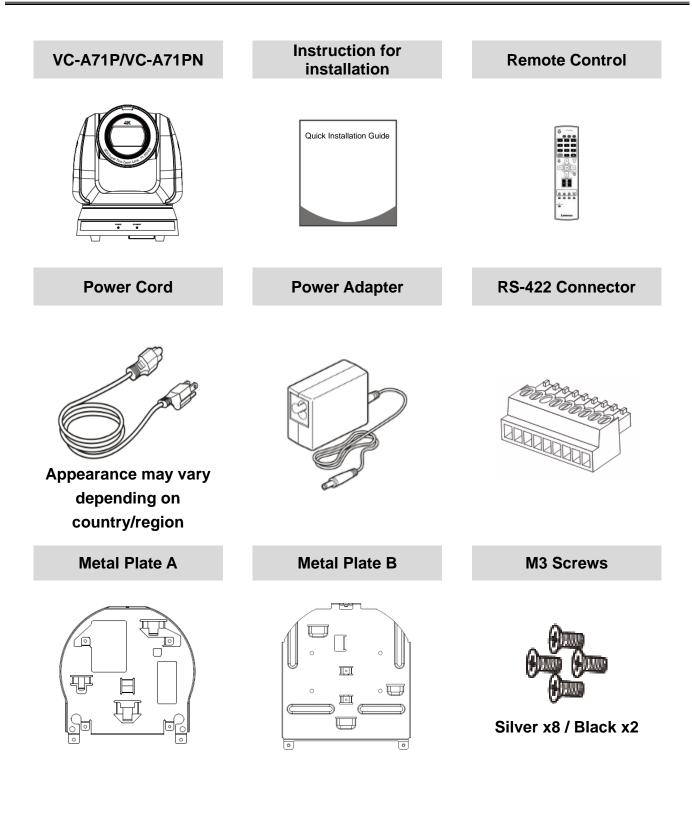

#### EN55032 CE Warning

Operation of this equipment in a residential environment could cause radio interference.

#### KC Warning

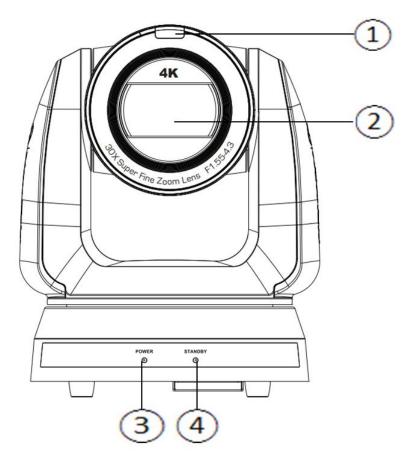

This equipment is Industrial (Class A) electromagnetic wave suitability equipment and seller or user should take notice of it, and this equipment is to be used in the places except for home.

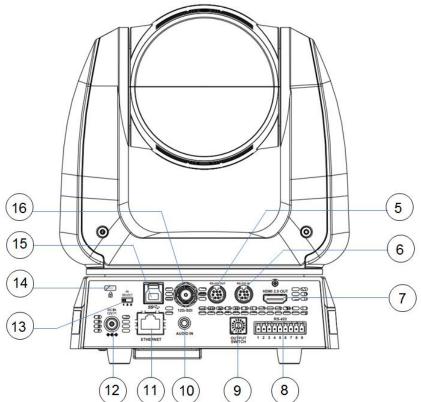

## 3.1 I/O functions Introduction

3.1.1 Front View

NO.	Item	Function Descriptions
1.	Tally indicator light	Display the tally light status of the camera
2.	Camera lens	30x HD camera lens
3.	Power LED	Display the status of the camera, please refer to <u>3.2 Description of</u>
	indicator	LED indicator
4.	Standby LED	Display the status of the camera, please refer to <u>3.2 Description of</u>
	indicator	LED indicator

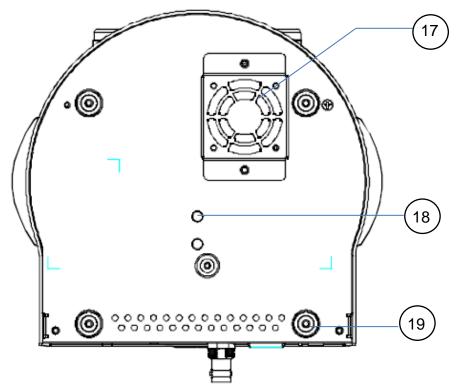

### 3.1.2 Back View

<remark></remark>	The figure is an example of VC-A71P. VC-A71PN does not support SDI
	output and USB.

NO.	Item	Function Descriptions
		RS-232 output port, at most 7 cameras can be connected in a
5. RS-232 output		serial connection
		RS-232 input port, at most 7 cameras can be connected in a serial
6.	RS-232 input	connection
7.	HDMI 2.0 output	HDMI 2.0 output (Audio output supported)
1.		RS-422 connecting port, at most 7 cameras can be connected in a
8.	RS-422 port	serial connection
9.	OUTPUT SWITCH	Adjust the resolution setting. The default is 3840 x 2160/59.94p
10.	Audio input	Support Line In/Mic In
		Network port, supporting routers or hubs with power supply
11.	Network port	VC-A71P : PoE++ (IEEE802.3bt)
		VC-A71PN : PoE+ (IEEE802.3at)
12.	DC 12 V power connector	AC power supply connecting port
13.	IR SELECT	The remote control ID setting is only controlled after corresponding to the Camera Select on the remote control
14.	Kensington lock hole	Safety lock slot
15.	USB 3.0 port	A reserved hole. The current firmware does not support this function. Please refer to the firmware update information on the webpage for the official release schedule. <b>Remark&gt;</b> Support up to 3840 x 2160/29.97p <b>Remark&gt;</b> VC-A71PN does not support this output port.
16.	12G-SDI output	12G-SDI output (Audio output supported) <remark> VC-A71PN does not support this output port.</remark>

NO.	Item	Function Descriptions
17.	Mute cooling fan	The cooling fan automatically controls its rotation speed and performs cooling in cope with the operation temperature of the machine
		<remark>The cooling fan is not available on VC-A71PN.</remark>
18.	Tripod deck lock hole	The camera is mounted on a (specification) 1/4" - 20 UNC tripod
19.	Rotatable foot pad	When using the metal plates of accessories, remove 4 pieces of rotatable food pads on the bottom by rotating counterclockwise, and then install the mental plates

### 3.2 Description of LED indicator

Status	Power	Standby
Startup in progress (initialization)	Green light	Orange light
In use	Green light	No indicator
In standby mode	No indicator	Orange light

### 3.3 Tally Lamp Function Description

3.3.1 Tally Lamp function may be enabled through the control of RS-232 command. The setting method is as follows:

Tally Mode: 8x 01 7E 01 0A 01 0p FF

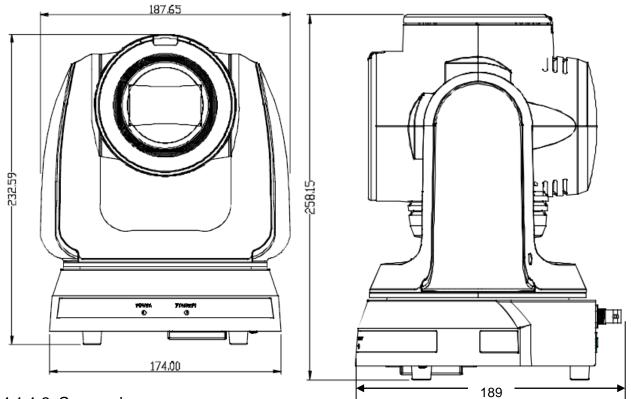

- p = 0: OFF
- p = 4: Red light (half-brightness)
- p = 5: Red light (full-brightness)
- p = 6: Green light (full-brightness)
- p = 7: Orange light (full-brightness)

### 4.1 Camera dimension:

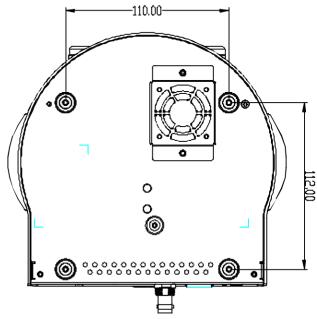

4.1.1.1 Camera front view and side view

- Lengthx width x height: 232 x 188 x 189 mm
- Weight: 3.0Kg (excluding the metal plate)

### 4.1.1.2 Camera base

The camera base has tripod mount lock holes and can be installed on the tripod deckof a standard specification 1/4"-20 UNC.

## <u>Lumens<sup>®</sup></u>

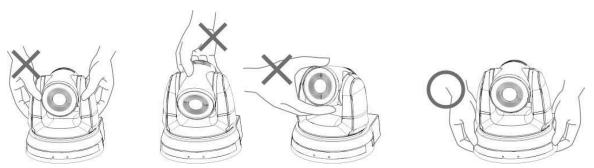

### 4.2 Preparation before installation

Installation and connection of the HD camera requires special skills. To install by yourself, please follow necessary steps, ensure steady and tight installation of the device, and pay attention to your safety to avoid any accident.

- 4.2.1 Ensure the safety of the installation environment. Please do not install the device on unstable ceiling or in a place where the device is in danger of falling to avoid any accident.
- 4.2.2 Please check whether accessories in the box are complete or not. Please contact the supplier for any shortage, and make sure to keep the accessories in the box intact.
- 4.2.3 Please choose a proper place for installation of camera in advance. Please determine an installation place according to the following requirements
  - 4.1.1.1 Confirm the position for the object to be captured.
  - 4.1.1.2 Confirm whether the camera is set at a proper distance from other light sources.

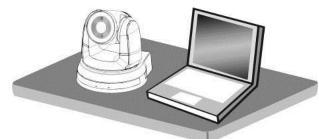

### 4.3 Instruction for installation

- 4.3.1 I would like to install camera on the desk
  - 4.3.1.1 Precautions for installation
    - Please install the machine on a flat desk
    - ◆ Do not grab the camera head by hand when handling the device
    - Do not rotate the camera head by hand. Improper rotation may result in breakdown of the camera

### 4.3.1.2 Installation steps

1. Place the camera on a flat desk directly to ensure the normal vertical and horizontal operation of the machine

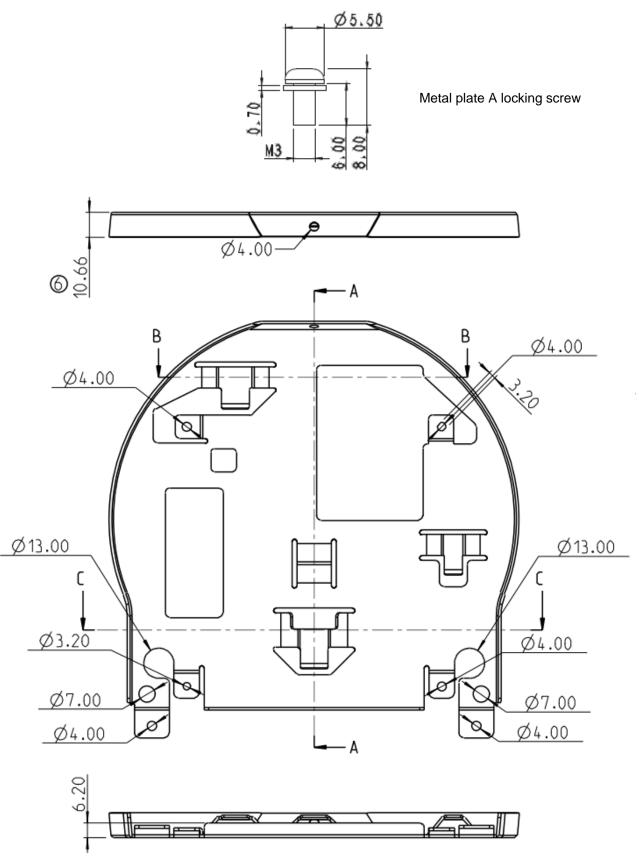

### 4.3.2 I would like to install the camera on the ceiling

- 4.3.2.1 Prepare for the parts and equipment required during the installation
  - 1. Accessories in the box (metal plates A, B, M3 screw silver x 8, black x 2)
  - 2. Screw for locking on ceiling mounted hanger x 4
  - 3. Drilling machine, screw driver, ladder

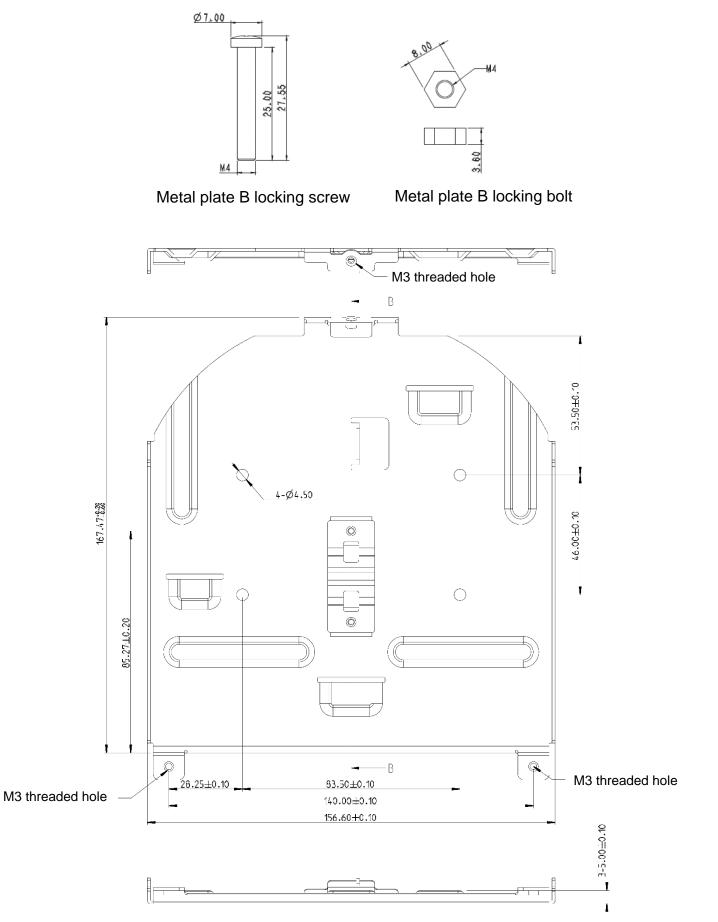

- 4.3.2.2 Metal Plate size diagram
  - Metal plate A machine side

Metal plate A - machine side

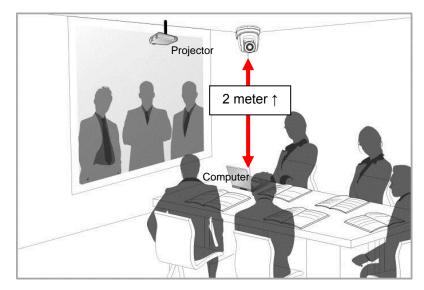

Metal plate B - ceiling side

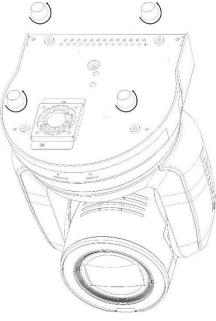

- 4.3.2.3 Precautions for installation
  - 1. Before installation, please confirm the orientation of the machine relative to the object to be captured
  - It is recommended that the machine should be set at a distance of more than 2 meter away from the object to be captured. Please adjust for a best distance according to the magnification of the lens

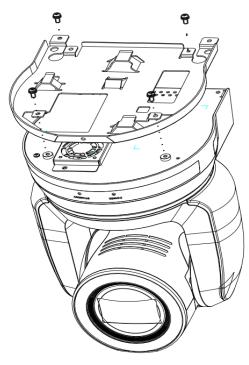

- 3. The machine (including metal plates) is weighed at about 3 kg. If it is to be installed on the ceiling, please use the hanger that has obtained UL security approval to prevent the machine from falling down.
- 4. Please check whether the camera is installed securely on a regular basis.
- 5. Please clean the cooling fan located at the bottom to ensure the good heat dissipation effect of the machine on a regular basis.
- 4.3.2.4 Installation steps
  - 1. Remove 4 pieces of foot pads on the bottom of the camera by rotating the foot pads counterclockwise.

<Remark> Please keep the foot pads properly after removal and store them for future use.

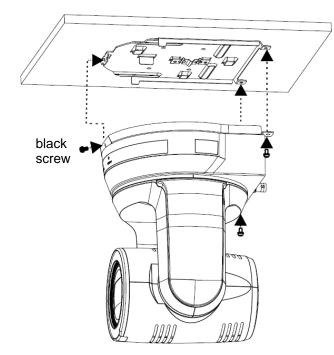

2. Fix the metal plate A on the machine base with 4 M3 silver screws

3. Lock the metal plate B on ceiling mounted hanger

## <Caution>:

- (1) Please use the hanger that has obtained UL security approval
- (2) Please reserve the hole for the connecting wires of the camera
- 4. Combine the metal plate A and the metal plate B
  - (1) Push the metal plate A up to the ceiling and then to the right to latch the metal plate B
  - (2) And then secure with 2 M3 silver screws and 1 M3 black screw

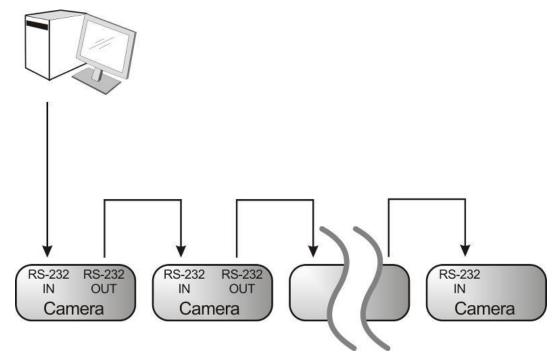

#### 4.3.2.5 How to remove

- 1. Remove the connecting wires from the camera
- 2. Uninstall the camera together with the ceiling, loosen the three screws that fix the metal plates A and B and push to the left to remove the machine
- 3. Then remove the screws on the hanger and the machine

### 4.4 Connecting devices

4.4.1 Connecting RS-232

With RS-232 in/out, at most 7 Lumens cameras can be connected.

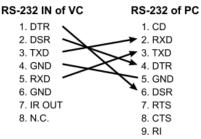

RS-232 pins definition instructions

 RS-422 Serial Connection Up to seven cameras can be daisy-chained

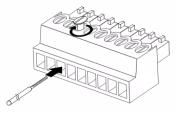

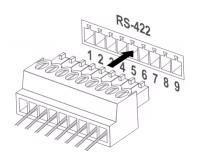

- RS-422 connection instructions
- 1. Hold the two sides of RS-422 connector and pull out in the direction shown by the arrow in the figure below

2. Peel off a section of copper wire (AWG Nos. 28 to 18) and insert it into the connector hole; then use flat screw driver to fix it

3. Insert the wired RS-422 connector back to the Camera. Now the connection is completed

## **Chapter 6 Network Function Settings Description**

## 6.1 Connecting Camera to Network

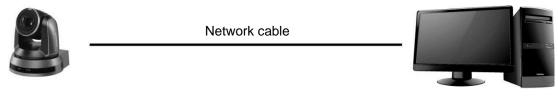

### 6.1.1 Connecting to Internet

Two common connection methods are shown below

1. Connecting via switch or router

2. To connect directly through network cable, the IP address of the computer should be changed so that it is on the same network segment as the camera e.g.: The factory-preset default IP address of camera is 192.168.100.100. The computer IP address must be set with the same network segment, such as 192.168.100.101, so that the computer can be connected correctly with the camera

Computer

• Change network settings

Camera

eneral	
'ou can get IP settings assigned aut his capability. Otherwise, you need t he appropriate IP settings.	
Obtain an IP address automatic	ally
<ul> <li>O Debtain an IP address automatic</li> <li>Use the following IP address:</li> </ul>	ally
0-	ally
Use the following IP address:	

## <u>Lumens</u>

### 6.1.2 Using the Browser to View the Images

- Open the browser, and enter the URL of camera in the IP address bar e.g.: <u>http://192.168.100.100</u> (default IP address)
- Enter administrator's account and password

\*For the first login, please refer to <u>6.2.3 User Management Modify</u> to chang the default password

- Account: admin
- Password: 9999

### 6.1.3 Using Lumens VMS Software to View the Images

<Remark> Lumens VMS is for VC-A71P only and cannot work with VC-A71PN

- Open *LUMENS VMS* software (Please download from the Lumens official website)
- Search for the camera: Press [automatically search for the device] button to locate the VC-A71P camera
- Click the camera in the list and start operation after connecting to network

<Caution> When using automatic search, the camera and computer must be in

### 6.1.4 Using RTSP Player to View the Images

#### <Remark> This is only applicable to VC-A71P. VC-A71PN does not support RTSP Streaming

In addition to the browser and VMS, other free softwares also can be used for RTSP connection, such as

VLC, Quick Time and PotPlayer

RTSP connection address formats are as follows:

- RTSP Main Streaming (4K@H.265) => rtsp://<u>camera IP</u>:8554/<u>hevc</u>
- RTSP Sub1 Streaming (1080P@H.264) => rtsp://<u>camera IP</u>:8557/<u>h264</u>
- RTSP Sub2 Streaming (720P@H.264) => rtsp://<u>camera IP</u>:8556/<u>h264</u>

Example: Open VLC software, click [Open Network Stream], and enter a URL:

rtsp://192.168.4.48:8554/hevc

# **Chapter 8 Troubleshooting**

This chapter describes problems you may encounter while using VC-A71P/VC-A71PN. If you have questions, please refer to related chapters and follow all the suggested solutions. If the problem still occurred, please contact your distributor or the service center.

No.	Problems	Solutions	
1.	Boot without power signal	1. Make sure you have plugged in the power cord.	
		2. When using a PoE connection, ensure that the power supply	
		supports PoE+ / PoE++ hubs VC-A71P : PoE++ (IEEE802.3bt) VC-A71PN : PoE+ (IEEE802.3at)	
2.	There is no image output from VC-A71P	<ul> <li>1. Check the power supply or PoE supply functions.</li> <li>2. Confirm the output signals are in streaming output.</li> <li>3. Confirm whether the camera resolution can be used together with the monitor equipment</li> <li>If 4k output, confirm the monitor equipment supports 4K output</li> <li>4. Replace the cables and make sure they are not faulty.</li> </ul>	
3.	RS-232 cannot be controlled	<ol> <li>Confirm the connection is correct (RS-232 In/ Out)</li> <li>Please make sure the Baud rate setting is the same as the control equipment</li> </ol>	
4.	Whether the Internet can be used for operation	Please refer to Chapter 6 Network Function Description for the Internet usage	
5.	ONVIF software cannot locate the machine	Please be sure to use only English alphabets or numbers in [Setting]>[Video]> [Camera](Location) of the webpage. Using special characters and pressing the spacebar will cause the ONVIF software unable to locate the machine. <remark> This is only applicable to VC-A71P. VC-A71PN does not support ONVIF protocol</remark>	
6.	Tally lamp is not working when applying RS232 setting	<ul> <li>Please make sure if the <i>Tally lamp</i> function is enabled from the setting menu or web page.</li> <li>Setting Menu: System - Tally Lamp</li> <li>Web page: Setting - Camera - Tally Lamp</li> </ul>	
7.	The camera does not save the relevant parameters (PTZ, AWB …) after reboot	relevant Position from the setting menu or web page rs (PTZ, Setting Menu: System - Initial Position	

## Supplier's Declaration of Conformity 47 CFR § 2.1077 Compliance Information

Manufacturer : Lumens Digital Optics Inc. Product Name : VC-A71P/ VC-A71PN Model Number : 4KPTZ Video Camera

#### **Responsible Party – U.S. Contact Information**

Supplier : Lumens Integration, Inc. 4116 Clipper Court, Fremont, CA 94538, United States e-mail : support@mylumens.com

#### **FCC Compliance Statement**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
